Subject: Site 43, Proposed Plan, Pensacola Naval Air Station, Pensacola, FL

Dear Mr. Hill:

EPA has reviewed the above referenced document. We offer the following comments.

**SPECIFIC COMMENTS**

We would like to see an explanation of how you expect the G-1 alternative –also known as the preferred alternative- to eventually meet the cleanup goal. And if the cleanup mechanism is natural attenuation, please refer to my e-mail concerning natural attenuation for some guidance.

If you have any questions or comments, please contact me in writing or at 404.562.8544.

Sincerely,  
Senior Remedial Project Manager

Gregory D. Fraley
